Jake Hadden

Software Engineer

Atlanta, GA | (770) 302-8208

jakehadden.com | github.com/jakehadden | linkedin.com/in/jake-hadden | jakehadden@gmail.com

Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to learning software development, I worked as a management consultant for Accenture where I managed teams of technical engineers both onshore and offshore providing clients support and solutions to specific opportunities.

Development Skills

JavaScript, Python, Node.js, React, Express, Redux, RESTful API, PostgreSQL, Sequalize, Bootstrap, AWS, Flexbox, React Native, HTML, CSS

Software Development Projects

Chat Buddy | chatbuddy.com | github.com/jakehadden/chatbuddy   March 2018
- Conversation-generating software application for English as a Second Language (ESL) teachers to use with their students increasing communication effectiveness and efficiency in-class
- Features ability to view questions all at once or filter by specific categories as well as randomize the presentation order
- Built with HTML, CSS, SCSS, React, Node.js, Express, and MongoDB

Jamón Depot | jamondepot.club | github.com/Linustorvalds/jamondepot   December 2017
- E-commerce site that sells a fine selection of cured Spanish ham
- Built with HTML, CSS, SCSS, AngularJS, Node.js, Express, and MongoDB
- Integrated the Stripe API to allow for customer checkout and enabled sign up/log in for user accounts

Blackjack | myblackjack.com | github.com/Linustorvalds/myblackjack   November 2016
- The classic card game Blackjack (aka 21), featuring betting and ability for the player to hit, stand, double down, and split
- Built with HTML, CSS, SCSS, JavaScript, and jQuery
- Wrote program adhering to OOP principles and utilized Jasmine to test functionality while building

Nerd Review | nerdreview.co | github.com/Linustorvalds/nerdreview   October 2016
- A product review website where users can add products and write reviews as well as browse existing reviews
- Built with HTML, CSS, JavaScript, jQuery, Python, Flask, and PostgreSQL
- Designed and assembled a fully mobile-responsive layout and routed information being passed from the database

Professional Experience

Wunderman | Front-End Web Developer | Madrid, Spain   March 2015 – August 2016
- Created, updated, and maintained responsive web pages for marketing campaigns using HTML, CSS, JavaScript, and jQuery (clients included Ford, Cepsa, Accenture, L'Oreal, Nivea, Adidas, and Cetelem)
- Worked closely with four other developers as a team to successfully meet deadlines and fulfill requests of constant last-minute changes and tweaks on projects
- Translated presentation material and content from Spanish to English

Spanish Ministry of Education | Language & Culture Assistant | Madrid, Spain   September 2012 - June 2015
- Awarded post-graduate scholarship to serve as a cultural ambassador and English language model in a Spanish public primary school
- Taught English to 1st-6th grade students (ages 6 to 12) in English, science, and art classes

Education

DigitalCrafts | Full-Stack Immersive Program | Atlanta, GA   September 2017 – January 2018
- Immersive software engineering training course covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React / Redux and server-side technologies including Node.js, Express, and MySQL.

Clark University | B.A. in Psychology | Worcester, MA   September 2008 – May 2012
